FOR IMMEDIATE RELEASE

A & S Financial, LLC Has Changed Its Name to the Intriguing Empower 2 Thrive, LLC

[National Harbor], [MD], [January 21, 2013] – "Every person who owns a business or wants to own their own business has the right for it to be a financially successful one," states Sherrell T. Martin, owner and Chief Empowerment Officer of Empower 2 Thrive, LLC.

Sherrell has owned and operated A & S Financial, LLC for three years. She decided to change the name of the company to Empower 2 Thrive because "A & S Financial just wasn't me," she says. "It was so traditional and I wanted something that was more empowering and uplifting and that could embody all of the future divisions to come." This new change is only the beginning of her passion to help other business owners and entrepreneurs thrive financially in life and in business.

Empower 2 Thrive is a boutique practice near Washington D.C. that provides financial management consulting and business success strategies to entrepreneurs seeking to take their business to the next level. According to statistics, 5% of small businesses fail within the first year and Sherrell believes it's due to a lack of knowledge and a lack of financial education.

Empower 2 Thrive will provide business owners with tools, tips and resources to help them succeed financially and allow their businesses to soar. Through their Financial Empowerment™ Division, they offer financial services such as accounting, bookkeeping, and software installation and training. And through their Entrepreneurial Empowerment™ Division, they offer business consulting services, such as business strategy and financial education.
