MD Entrepreneur Earns Prized Distinction for ‘Business on the Rise’

National Harbor, MD, July 18, 2014 - A winner is amongst us and her name is Sherrell Martin. Last month, the Maryland native took home the 2014 Business on the Rise Award. The honor comes from Stiletto Media at the end of a vigorous competition of emerging entrepreneurs.

Martin, one of three winners sharing the title in the category, is owner of Empower 2 Thrive, LLC, a consulting practice specializing in full service outsourced accounting and bookkeeping services. She and her team provide financial management services to coaches, consultants and construction contractors and support the financial health of clients’ businesses to reduce overhead and increase cash flow.

Her company is not like any other outsourced accounting and bookkeeping practice. They pride themselves on being a full service accounting department for their clients. In her words, "we are their back office support; an extension of their business; a part of their team."

Stiletto Media began hosting the [Women in Business Awards](#) in 2009, highlighting categories like Mom Entrepreneur of the Year, Small Business Success Award and Girl Advocate of the Year. Award recipients are recognized according to the nature of their business, service and industry.

In 2013, Martin was also a frontrunner for both a \$5,000 grant and a WE Rock Rising Star Award in separate but equally prominent contests.

Sherrell Martin is available for interviews and speaking engagements. For booking, media appearances and/or more information, contact <mailto:info@empower2thrive.com>. For more information about Empower 2 Thrive, LLC, visit www.empower2thrive.com.

About Sherrell Martin: Martin is the owner and Founder at Empower 2 Thrive, LLC, a financial management practice specializing in outsourced accounting and bookkeeping services. Using virtual accounting and bookkeeping services as well as teleseminars, webinars and workshops, she helps entrepreneurs create, build and maintain financially thriving businesses so they can sustain success, create wealth and build their legacies.
